

CAPABILITY STATEMENT

WolfPeak is not your average consultancy. We are a passionate, cross-disciplinary team of specialists solving complex strategic and systematic issues from every angle. With capabilities spanning biodiversity, planning, sustainability and compliance, we support clients across the full project lifecycle - on site, in boardrooms and everywhere in between.

Our greatest assets are the relationships we have built, the ground we have covered across complex infrastructure projects, and our all-terrain team of experts ready to tackle whatever is thrown our way. We are guided by our integrity and commitment to create real economic, environmental and social benefits long-term.

OUR CAPABILITIES

Sustainability

**Environmental
Planning &
Assessment**

**Biodiversity
& Natural
Capital**

**Infrastructure &
Environmental
Management**

**Risk,
Audit &
Compliance**

CLIENTS

We place a high value on trust both within our company and with our clients. Our working relationships are based on respect, honesty, responsiveness and flexibility. And we pride ourselves on communicating clearly – so our ideas, advice and findings lead to tangible business results.

Some of the organisations we have worked with include:

SECTORS

Our consultants have worked across public and private sectors, resulting in unparalleled experience, insights and long-standing relationships.

WolfPeak delivers services across a broad range of infrastructure sectors, including:

- **Transport, Education and Health**
- **Utilities and Energy Transmission**
- **Data Centres and Communication**
- **Renewable Energy**
- **Environmental**
- **Civic and Public Spaces**

WolfPeak also supports clients at an organisational level. Our team works closely with businesses to develop sustainability and ESG strategies, conduct independent audits, and design and integrate fit-for-purpose management systems. By aligning governance, risk and compliance with broader organisational goals, we help clients drive strategic outcomes and continuous improvement across their operations.

CREDENTIALS

- History of Independent Environmental Representative roles and leadership on major infrastructure and energy projects across NSW
- NSW Registered Environmental Assessment Practitioner accredited environmental planners, certified to review and submit Environmental Impact Statements (EIS) for State Significant Developments and Initiatives in NSW
- Bird and bat assessment specialists for renewable energy projects
- Accredited ecological and biodiversity offset assessors
- Expertise in Environmental Impact Assessments (EIAs)
- Greenhouse Gas (GHG) Modelling experts

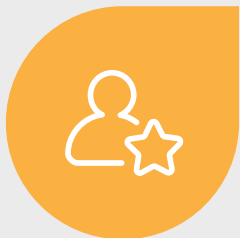

WHY WOLFPEAK?

Strong Relationships and Trust

Our long-standing relationships are some of our most valuable assets. The Environmental Management Team's deep project history means we have well-established connections with the Department and other key regulators. We are fully conversant with environmental legislation and trusted to provide advice that aligns with regulatory expectations and project realities.

Integrated Inhouse Expertise

Our departments work cross-functionally alongside experts across other disciplines. This integrated approach gives us greater control of the process, delivers well-rounded, informed insights to shape strategic decisions, and removes the need for clients to engage additional external consultants.

Geospatial Services

WolfPeak's internal Geospatial Services (GS) department provides a unique advantage across projects. With expert knowledge in data management, Geographic Information Systems, spatial analysis, mobile mapping, cartography, drone-based remote sensing technologies and spatial modelling, the department underpins each of WolfPeak's service areas - enhancing data insights and improving project outcomes.

SUSTAINABILITY

WolfPeak offers a wide range of expert sustainability management and auditing services.

Our highly skilled, award-winning team brings extensive experience across public and private sectors, including contractors, Government agencies, Aboriginal Land Councils and corporations of various sizes. With a multi-disciplinary service model and strong accreditations, WolfPeak provides integrated sustainability solutions from strategy through to achievement.

KEY SERVICES

- ESG strategy, risk and materiality assessments
- Readiness reviews and reporting advisory (ASRS, GRI, CDP, SASB, TCFD, TNFD, UN SDGs)
- Scope 1, 2 and 3 emissions assessments and GHG inventories
- Climate risk and impact analysis
- Technical input into reporting and decision-making
- Embedded sustainability support for projects and organisations
- Preparation of reports, monitoring data and compliance documentation
- IS Rating documentation, certification and audit support
- Independent sustainability audits and ISP reviews
- Management systems reviews, gap assessments and recommendations

KEY PROJECTS

-  **Baseline GHG Inventory and Mandatory Disclosure Assessment | Abergeldie Complex Infrastructure**
Technical Analysis, ESG Strategic Advisory, Reporting and Disclosure Readiness
-  **Sustainability Building Audit | Amazon**
Sustainability Auditing, GHG Inventory
-  **Botany Rail Duplication – Sustainability Manager | John Holland**
Sustainability Management, Technical Analysis
-  **Embodied Emissions Framework Review | Department of Planning, Housing and Infrastructure**
Technical Analysis
-  **Fulton Hogan Project Sustainability Review | Fulton Hogan Eastern Region Construction**
Auditing and Review Services
-  **Malabar Biomethane Project | Jemena**
Sustainability Management, Technical Analysis
-  **Sydney Metro, Western Sydney Airport SSTOM Package | WeBuild**
Advisory, Sustainability Management
-  **RM Watson ESG Strategy | RM Watson**
Advisory, Technical Analysis

ENVIRONMENTAL PLANNING & ASSESSMENT

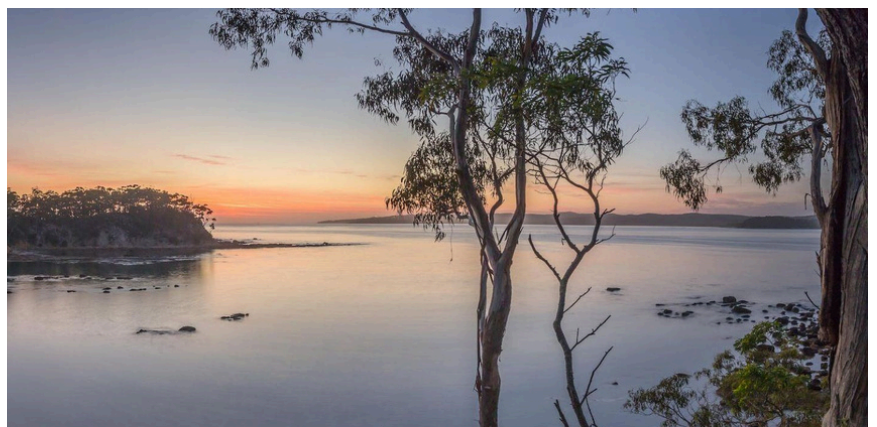

At WolfPeak we pride ourselves on our strong environmental planning, assessment and approvals capability. We have experience in scoping and managing environmental assessments for infrastructure projects in coastal zones, regional and urban areas. We take the time to understand each project's context and risks, offering solutions that are strategic, accurate and ready for implementation. With a reputation for reliability, strong regulator relationships and coordination across our technical disciplines, we are trusted to keep projects moving from early approvals through to construction, compliance, and beyond.

KEY SERVICES

- Planning pathway advice for DAs, REFs, SSDs and SSIs
- Identification of environmental constraints and legislative triggers
- Preparation of Environmental Impact Statements (EISs) and consistency assessments
- Stakeholder and regulatory authority engagement and consultation
- Independent planning assessments for government agencies
- Condition review and negotiation to streamline approvals
- Development of Construction and Operational Environmental Management Plans (CEMPs and OEMP)
- Preparation of post-approval documentation and compliance reporting
- Biodiversity Development Assessment Reports (BDARs) and ecological assessments
- Coordination of technical inputs (heritage, bushfire, water, noise, traffic, etc.)
- Integration of specialist studies into planning and approvals frameworks

KEY PROJECTS

- 
Strontian Road Solar Farm EIS | Grupo Cobra
 Narrandera, NSW
- 
National Parks and Wildlife Service Infrastructure Replacements | NPWS
 NSW
- 
Fire Access & Fire Trail (FAFT) Upgrades Across NSW National Parks | NPWS
 NSW
- 
Landslip Remediation Works | MidCoast and Port Macquarie Hastings Council
 NSW
- 
The Bundian Way – Node 1 | National Parks and Wildlife Services
 Jigamy Farm to Fisheries Beach, NSW

BIODIVERSITY & NATURAL CAPITAL

WolfPeak's experienced Biodiversity and Natural Capital capability brings together a highly skilled team of ecologists, environmental assessors and an in-house geospatial specialist to deliver evidence-based insights. The team is known for its adaptability, with the ability to support a broad range of large and small projects across sectors including renewable energy, transmission and storage infrastructure, linear infrastructure, ports and land development.

KEY SERVICES

- Biodiversity and ecological impact assessments, including BDARs
- Habitat conservation, ecological monitoring, and wildlife management
- Natural capital management, accounting, and offsetting strategies
- Biodiversity stewardship site assessments and credit transaction support
- Bird and bat impact monitoring for wind energy projects
- Riparian, coastal, and estuarine environment management
- Soil erosion, acid sulphate soil, and waterway health assessments
- Coastal and vegetation management plans and on-ground delivery

KEY PROJECTS

Strontian Road Solar Farm | Grupo Cobra | Narrandera, NSW
Ecology Services

Conargo Wind Farm | Squadron Energy | South-West Renewable Energy Zone
Ecology Services

Coffs Harbour Bypass | Project Ecologists | Coffs Harbour, NSW
Ecology Services

Credit Supply Task Force | Taskforce Panel | Shark Creek and Walcha, NSW
