

ENVIRONMENTAL AUDITING

WolfPeak has three Exemplar Global certified Environmental Auditors with significant environmental and compliance auditing experience across a wide range of industries and sectors. Our environmental auditors have also worked in roles including:

- Environmental managers for major civil contractors and their clients during the construction and operation of major infrastructure projects (road, rail, ports and logistics centers)
- Environmental planners
- Environmental consultants to government and the private sector

This means we are able to bring a practical and down to earth approach to auditing from our extensive experience of having worked on the type of projects we audit. Our most senior auditor (Steve Fermio) has been approved by the NSW Department of Planning and Environment as an Independent Environmental Auditor on the following projects:

- Sydney Intermodal Terminal Alliance Moorebank Logistics Park (Stage 1), 2017 to present;
- Hutchison Ports' Port Botany Operations, 2015 to present;
- Patrick Stevedore's Port Botany Expansion Construction (2013 - 2015) and Operations, 2017 to present;
- Water NSW Chaffey Dam Safety Upgrade & Augmentation (2015);
- Sydney Ports' Intermodal Logistics Centre at Enfield (2009 – 2011); and
- Australian Rail Track Corporation's Maitland to Minimbah Third Track Project (2013).

Other major audits that our team has worked on include:

- Wildlife Carers' (WIRES) Audit for NSW Office of Environment and Heritage against the requirements of the:
 - Rehabilitation of Protected Fauna Policy
 - Code of Practice for Injured, Sick and Orphaned Protected Fauna
 - Code of Practice for Injured, Sick and Orphaned Koalas
 - Code of Practice for Injured, Sick and Orphaned Flying-foxes
 - Code of Practice for Injured, Sick and Orphaned Wombats
 - Guidelines for the rehabilitation of birds of prey
- Annual compliance audits under the South Australian Petroleum and Geothermal Energy Act 2000 of Geodynamics Limited (a major geothermal exploration company) field operations in the remote Cooper Basin area of South Australia.
- Operator's Licence and Retail Suppliers Licence audits of Orica's Groundwater Treatment Plants
- Audits of scheduled activities on the Botany site (Groundwater Treatment Plant, HCB Repackaging Plant, ChlorAlkali Plant, Mercury Remediation Project), against Environment Protection Licence
- Transmission Cable Alliance Audits including audit of subcontractor against the construction environmental management plan (CEMP) for the installation of 132kV transmission line between Wiloughby and Crows Nest and against the CEMP for the installation of 132kV transmission line between Rose Bay to Surry Hills
- Audits of NSW Catchment Management Authorities (now part of Local Land Services) Natural Resource Management business systems
